Judges Information Update January 2016

Annual returns

Thank you to all of those that have completed and submitted their annual returns. If you have not yet done so I would appreciate it if you could take the time to complete your annual return and submit it to me as soon as possible.

Equipment inspection

At the most recent Operations committee meeting the topic of equipment inspection was discussed at length. The conclusion of these discussions was that an equipment inspection will be carried out at all UK Record Status events with immediate effect. It is understood that in the short term there may not be sufficient time allocated before shoots start but that equipment inspections can be carried out during the shoot. Judges are requested to work with tournament organisers to ensure that sufficient time is made available for inspections to be carried out in future events.

Conference

A reminder that the National Conference has been cancelled. The office now has a list of those who have paid and what they paid. Please email lorraine.williams@archerygb.org with your bank account details for BACS or name and address for a cheque. Email should be titled "Judges Conference Refund".

Uniform trousers

A new sample has been received and will be assessed for suitability. If anybody bought the previous versions then you are entitled to a refund. Kudos will be emailing out to all those that bought the trousers so please keep an eye out and check your junk and spam folders just in case.

Camouflage equipment

Please see the following statement from the Chairman of the Rules committee:

"Reference: Camo equipment. As you all know, WA have introduced a ruling banning Camo based equipment at events. At present there is no requirement for us to enforce this at events organised by AGB (including World Record Status events) unless they are "Major" events - for example the European Target Championships 2016. There may yet be a need for us to re-consider this approach, particularly in respect of televised events (for example, National Series Final). Further communication will be made in due course.

A statement is likely to be made on the AGB Website, in the E-Zine and in Archery UK in due course, but in the meantime could you please let all your Judges know that for the moment no action is required in respect of Archers who wish to use Camo equipment.

Please be reminded however, that AGB do have Dress Regulations that ban Camo clothing."
